Steve Ellam is a 39yrs old English guy who has been a partner of BTBAB for almost 7years. On three separate occasions he was part of the team that went out to Mozambique with BTBAB in 2002, 2003 and recently in 2008. He is a carpenter by trade and served in this capacity on all 3 mission trips.

During his recent mission trip with BTBAB in 2008, Steve approached the team leaders (Femi & Kathryn) and submitted to them that God may be leading him to return to Mozambique on a more long-term basis. His desire is to return to Mozambique in Sept'09 to help build the Maracuene Carpentry Centre where youths leaving the orphanage can receive training in carpentry to earn a living after leaving the orphanage.
